Sir:

Please review and enter the following remarks summarizing the interview conducted on November 1, 2007:

**REMARKS**

A telephonic interview was conducted on November 1, 2007 between the Applicant's undersigned representative and Examiner Lucy Chien. During the telephonic interview, the Examiner discussed a newly cited reference (U.S. Patent No. 6,392,735 to Tani). The Examiner suggested amending the claims to recite that the conductive column contact portion is electrically connected to the first conductive column by direct contact of the first electrode. The Examiner indicated that the proposed amendments would distinguish the claimed invention over Tani. Applicant's undersigned representative agreed to discuss the proposed amendments with the Applicant.
